Re: Summons dated 4-26-78 -
W. T. Ondrus, Personnel Director,
Chrysler Michoud Defense-Space
Division, New Orleans, LA.
Re: Personnel Records of Dante
Marochini (former employee)

Dear Sir:

This letter is to confirm our conversation of 4-28-78, at the time you served the above captioned summons, wherein you advised me that notwithstanding the order of the summons, the only necessary action on my part, on behalf of Chrysler Corporation, would be to provide you with copies of the personnel records of Dante Marochini, including notes, memoranda, payroll slips, credit checks, references and all materials concerning Dante Marochini.

Attached to this letter please find a package of eighty-four (84) Xerox pages, which are copies of every and all personnel documents, notes, memoranda, payroll information, employment reference checks, and all materials concerning Mr. Dante Marochini's employment with Chrysler Corporation.

It is my understanding that it will not be necessary to appear before the Subcommittee on the Assassination of John F. Kennedy of the Select Committee on Assassinations in Washington, D.C. on May 12, 1978. Please confirm this understanding.

If there are any questions concerning this matter, please feel free to contact me at any time. Telephone number (504) 255-2362 or (504) 255-2360.

Sincerely,

W. T. Ondrus
Personnel Director

PERSONNEL REINSTATEMENT OR CHANGE NOTICE

IN THE SPACE BELOW DESCRIBE THE REASONS FOR THIS PERSONNEL CHANGE. SUPPORT REASONS WITH EXAMPLES AND ILLUSTRATIONS WHEREVER POSSIBLE:

Good + Attendance record (16.0 w/p + 1.5 w/p)

Marochini has had 4 years exp in mfg. prod. control before coming with Chrysler in 8/63. He states that duties he is now performing in Branch Dept are of the Sr 8 level & he feels that he has been discriminated against. This promo will accomplish the following: (1) relieve a employee relations problem cause (2) remove Marochini from a position for which a grade level has not been established & there is a problem should the grade be lower than Sr 5 (3) the promo retains him in Material Department under Dawson & therefore his exp is utilized to the advantage of Chrysler Corp.

Mr. Marochini has a degree in languages & appears to be a very serious person. His new supervisor O'Neil is aware of this & will direct this ambition to the best advantage of his Dept.

Mr. Marochini is worthy of this promotion.

INSTRUCTIONS REGARDING PAYMENT OF FINAL SALARY OR WAGES DUE

UPON TERMINATION OF EMPLOYMENT

IT IS THE PRACTICE OF CHRYSLER CORPORATION TO MAIL CHECKS TO TERMINATING EMPLOYEES ON THE NORMAL PAYDAYS FOR THE PAY PERIODS IN WHICH THE WORK WAS PERFORMED. THIS ALLOWS THE CHRYSLER PAYROLL DEPARTMENT IN DETROIT TO CORRECTLY COMPUTE DEDUCTIONS AND TO INCLUDE ALL TERMINATING BENEFITS IN THE CHECK WHICH REPRESENTS THE LAST PAY PERIOD IN WHICH YOU WORKED.

IF THIS ARRANGEMENT IS SATISFACTORY TO YOU PLEASE INDICATE THE ADDRESS TO WHICH YOU WISH THE CHECKS MAILED AND SIGN BELOW.

4951 MUSIC STREET, NEW ORLEANS, LA. 70122,
NUMBER AND NAME OF STREET CITY STATE ZIP CODE

* * * * *

PLEASE INDICATE BELOW THE ADDRESS YOU WISH THE CORPORATION TO USE FOR MAILING THE FEDERAL TAX REPORTING FORM (W-2 STATEMENT) AND AS A PERMANENT ADDRESS ON OUR RECORDS.

- USE SAME ADDRESS AS NOTED ABOVE FOR MAILING FINAL EARNINGS.
- USE ADDRESS PRESENTLY ON MY PERSONNEL RECORD.
- USE ADDRESS INDICATED BELOW.

Description of Work - The Production Control Planner works with schedules, Manufacturing Engineering data, Quality Control information and related input from other groups such as Purchasing, Follow-Up, Industrial Engineering and Material Control. He is responsible for the smooth flow of the manufacturing effort; and must have the ability to anticipate and prevent production bottlenecks. Among his primary functions are the direction of manufacturing, floor inspection and material in such a manner that the schedule shall not slip. In the course of these duties he will maintain daily contact, and amiable relations, with manufacturing and quality control supervision, and NASA representatives.

He must be capable of analyzing and defining production problems, plus recommending alternate courses of remedial action. In the course of breaking production bottlenecks, he will be expected to contact both supervisory and management representative from all departments involved. He will push all departments involved for the rapid solution of problems and maintenance of the schedule.

R. Taylor

October, 3, 1962

These additional informations regarding my experience in the production control field and allied fields with:

- 1) Curtiss-Wright Aeronautical Division, Plant #7, Woodbridge, N.J.
- 2) Van Vlandereen Machine Co., Paterson, N.J.
- 3) WITCO chemical Company, Chicago, Ill., I deem most important to describe.

1) Curtiss-Wright: I was assigned to the power recovery wheels and its rework department. Here operation sheet were assembled and with parts needed were assigned to machinery. Expediting of these machine operations and the account of parts, their splitting, rework and rejections were kept. Close contact with the various inspection departments were kept. Re-routing of parts to operation to be made were prompt. Sub-assemblies and assemblies were fed to finish line in their parts or entirety with proper paper-work. - My next assignment was in connection with the development of jet engine and specifically in preparing all "TRAVELERS" paper work in sequence of operation and blue print copies for all discs and blades and their assembly. Engineering changes were posted immediately and parts affected re-routed. Checking of daily progress of parts and assemblies were made and shortage list kept up to date. Other departments, beside the machinery floor; Heat Treat; Paint shop; Forging; shipping and receiving; Tool cribs, were always contacted and frequented in order to expedite parts needed. -

2) VAN VLANDEREEN MACH. Co. - I was hired to perform a

combined job, that of scheduler and expeditor. - The company was manufacturer of most parts and assembly for printing machine for "A.T.F., American Type Founders. I was assigned to a new 35" HIGH SPEED printing machine and its sheet machine. - The task involved was from the beginning, separate the general parts list called "BIBLE.", To the end of completion of the machines; Purchase order were made for those parts supplied by other Companies; Casting and raw materials were ordered in their quantities proportioned to the machines on order. Expediting and helping the Engineering department to prepare all blue prints. Assemble all operation sheets and follow thru all parts till their final inspection. All scrap part at time of operation were immediately substituted.

Parts, sub-assemblies and assemblies were supplied to the machine assembly department and finished store. Finished store inventories were taken monthly and card system kept up to date. Spare parts accounts were kept separately and handling of these parts in storage and shipment were made. Special parts and treatments by outside company were well scheduled and expedited. - Tool cribs were checked from time to time and upon request of machinery supervisor. Machine maintenance and production time schedule were kept on records also indirectly the machinist performance of their duties. -

3) WACO Chem. Co. - My position was of engineering clerk. One mechanical engineer was in charge of all plant maintenance. Many pumps, motors, boilers, pipelines, tanks and instruments were to be kept running and well performing. My duty was to keep records of all machinery in their performance and maintenance. A new card system

was established for the preventive maintenance of all machines. Lubrication schedules and inspections were made. All records of repairs made by any mechanic were kept also the time schedule of all employees of the department. Weekly reports and recapitulation were made for each worker's time assigned to the various departments. The up keeping of a spare part store was among the duties and a minimum maximum established was kept at all times. Shortage lists and purchase orders were accordingly made. All withdraw of parts from this store were authorized by the engineer in charge or myself. - The reading of electric, Gas and water meter were made monthly and reports prepared. Safety zones and equipments were enforced and inspect were made from time to time. All the office mail was handled directly or indirectly by me. -

I find it hard to describe in its details all the aspects of my doing in the task assigned to me by the aforementioned Companies.

Many performances in the human relationship among all employees and their relative duties had to be kept at an high standard. In the field of this particular performance many individual and moral qualities must concur. -

Very Truly,
Your

SUBJECT: REQUEST FOR INTERVIEW - D. A. MAROCHINI P.A.

On March 1, 1967, I contacted Mr. Delaha and relayed the following information to him:

We have Mr. Marochini's updated PHR. If anything comes up that Mr. Marochini's capable of performing, we will be glad to consider him for it. Since he has been over here numerous times recently and there has been no significant change in employment requirements that would benefit Mr. Marochini, I advised Mr. Delaha that I did not feel that an interview was warranted at this time.

I advised him that we would continue to review Mr. Marochini's qualifications against any future requirements, however, our non-skilled employment requirements were becoming very infrequent because of the status of the program. I asked Mr. Delaha if he would please talk to Mr. Marochini and acknowledge our receipt of his letter requesting an interview and to relay the information that he (Mr. Delaha) and I had discussed over the phone.

CHRYSLER CORPORATION OR SUBSIDIARIES
APPLICATION FOR EMPLOYMENT
SPACE DIVISION SUPPLEMENT

IMPORTANT: This Space Division Supplement forms a part of the Application for Employment of all applicants for employment with the Space Division of Chrysler Corporation. The certification and understandings on the reverse side thereof immediately above the signature of the applicant are equally applicable to statements and information contained herein.

1. Answer the following question honestly and completely. An affirmative answer will not necessarily disqualify you from consideration for employment. However, failure to disclose fully the information requested below will be sufficient grounds for immediate discharge for falsification of your application for employment.

Have you at any time since your 16th birthday been detained, held or arrested, whether or not formally charged or if charged whether or not dismissed, by federal, state or other law enforcement authorities for any violation or suspected violation of any federal, state or local law, ordinance or regulation?

(Include any courts-martial proceedings brought against you while in military service. Do not include traffic violations for which a fine of \$25.00 or less was imposed.)

Yes _____ No NO _____

If yes, give date, place, details of the incident and final disposition.

2. Read the following statement carefully before signing this Supplement.

I understand that my application is for employment by Chrysler Corporation, Space Division, and that proper clearance for purposes of security for the national defense of the United States is required in connection with such employment. Therefore, I voluntarily consent to a thorough investigation of my past employment and other activities.

I understand further that the failure of any United States Government Agency to clear me will be sufficient grounds for immediate discharge from Chrysler Corporation Space Division.

REF.: P. H. R. ADDENDUM.

Dear Sir,

enclosed you find an addendum which will bring my personal record up to date.

I have always nourished strong feelings and consideration for Chrysler Corporation and their progressive industries. I have proven that these feelings have become a true factor because I have performed and fulfilled any, and all, duties assigned to me.

I can assure you that any additional investment on your part in me, it will always be guaranteed to the utmost.

I sincerely hope that consideration be given to my efforts to progress in the fulfillment of other duties in a better position.

ADDENDUM

Page-1

The material specification deckman's description of duties, which you have into your records, doesn't reflect all other duties of a deckman assigned to the raw material deck.

Raw material deck is peculiar to itself because it has in common with all others procedural work only.

Knowledge of raw materials is required in all its specifications, form, types, quantity, standard size available, specific weight-etc. Quantities are arrived by me in their size, weight and total requirement for a proper coverage of all production and non-production items.

I have responsibility manyfolds for miscalculations regarding all of its factors. I have to analyze periodically the raw material availability into our stock, the average usage of each material and its future requirement. I have to accomplish this taking into consideration all factors of production and non-production usage; average of scrappage and shop losses; usage of material by logithe, reliability, mock-up and other departments; quantities required by quality control for destructive test for acceptance of materials.

Other factors are also to be considered the unseen and uncontrollable one, such as material shipped to Huntsville, to Florida. I have to answer any shortage reports made by various departments for production and non-production items regarding any raw material need. I may say at this time

That shortages of raw materials have been eliminated, because I have cared to put into practice a preventive system thru analysis, procurement and control of materials.

I have sufficient knowledge of production control systems and their application, also that of material control and their application.

I have a general knowledge of purchasing department functions and duties in relation to vendors, contractual agreements, performance of contract and other procedures. Also I have knowledge, to a certain degree, of cost estimating and budgeting.

I can state that, though my knowledge may be limited, yet I have never failed to fulfill all duties assigned to me in the best possible way.

It is possible that I may not be able to describe in details the full extend of my knowledge in the various fields, because it has not been confronted with a counter-task to prove its degree of value and potentiality.

I have registered at Delgado Junior College in the study of mechanical engineering on Sept. 21, 1940.

I am attending the courses of physics, four hours weekly; engineering drawings, six hours; mathematics three hours weekly. I intend to complete this course

Which will further my knowledge in this technical field. I also channel this technical field toward a better point of accomplishment. This course is an advanced one requiring sufficient basis of knowledge of the forementioned subjects.

My meter of action of my everyday life, it is based on truthfulness. When I am confronted with any task and unable to perform and fulfill its duties, I make room for someone else better qualified for it.

I thank you for any consideration you may have in giving me a possibility to better myself and provide my children with a better living.

Very Truly,
Yours,

October, 3, 1962

These additional informations regarding my experience in the production control field and allied fields with:

- 1) Curtiss-Wright Aeronautical Division, Plant #7, Woodbridge, N.J.
- 2) Van Vlandereen Machine Co., Paterson, N.J.
- 3) WITCO Chemical Company, Chicago, Ill., I deem most important to describe.

1) Curtiss-Wright: I was assigned to the power recovery wheels and its rework department. Here operation sheet were assembled and with parts needed were assigned to machinery. Expediting of these machine operations and the account of parts, their splitting, rework and rejections were kept. Close contact with the various inspection departments were kept. Re-routing of parts to operation to be made were prompt. Sub-assemblies and assemblies were fed to finish line in their parts or intirety with proper paper-work. - My next assignment was in connection with the development of jet engine and specifically in preparing all "TRAVELER" paper work in sequence of operation and blue print copies for all discs and blades and their assembly. Engineering changes were posted immediately and parts affected re-routed. Checking of daily progress of parts and assemblies were made and shortage list kept up to date. Other departments, beside the machinery floor; Heat Treat; Paint shop; Forging; shipping and receiving; Tool cribs, were always contacted and frequented in order to expedite parts needed. -

2) VAN VLANDEREEN MACH. Co. - I was hired to perform a

combined job, that of scheduler and expeditor. - The company was manufacturer of most parts and assembly for printing machine for "A.T.F.", American Type Foundry. I was assigned to a new 35" HIGH SPEED printing machine and its sheet machine. - The task involved was from the beginning, separate the general parts list called "BIBLE.", To the end of completion of the machines; Purchase order were made for those parts supplied by other Companies; Casting and raw materials were ordered in their quantities proportioned to the machines on order. Expediting and helping the Engineering department to prepare all blue prints. Assemble all operation sheets and follow thru all parts till their final inspection. All scrap part at time of operation were immediately substituted.

Parts, sub-assemblies and assemblies were supplied to the machine assembly department and finished store.

Finished store inventories were taken monthly and card system kept up to date. Spare parts accounts were kept separately and handling of these parts in storage and shipment were made. Special parts and treatments by outside company were well scheduled and expedited. - Tool cribs were checked from time to time and upon request of machinery supervisor. Machine maintenance and production time schedule were kept on records also indirectly the machinist performance of their duties. -

3) WACO Chem. Co. - My position was of engineering clerk. One mechanical engineer was in charge of all plant maintenance. Many pumps, motors, boilers, pipelines, tanks and instruments were to be kept running and well kept. My duty was to keep records of all machinery in their performance and maintenance. A new card system

was established for the preventive maintenance of all machines. Lubrication schedules and inspections were made. All records of repairs made by any mechanic were kept also the time schedule of all employees of the department. Weekly reports and recapitulation were made for each worker's time assigned to the various departments. The up keeping of a spare part store was among the duties and a minimum maximum established was kept at all times. Shortage lists and purchase orders were accordingly made. All withdrawal of parts from this store were authorized by the engineer in charge or myself. - The reading of electric, gas and water meter were made monthly and reports prepared. Safety zones and equipments were enforced and inspections were made from time to time. All the office mail was handled directly or indirectly by me. -

I find it hard to describe in its details all the aspects of my doing in the task assigned to me by the aforementioned Companies.

Many performances in the human relationship among all employees and their relative duties had to be kept at an high standard. In the field of this particular performance many individual and moral qualities must concur. =

Your additional request for further opportunity for betterment within Chrysler Corporation is commendable. However, some salient points of our endeavors in your behalf are evidently being overlooked on your part and I should like to remind you again of the following efforts in this respect:

- (a) Your previous requests have been promptly processed through all levels of supervision up to the Personnel Placement Group for review and consideration.
- (b) Personal interviews have been arranged for you to present your case directly to these same levels of supervision and channels of personnel communication.
- (c) No effort has been made to hold you in the current job or classification, department or area of endeavor.
- (d) Your personnel records, updated to your specifications, are in the hands of the proper Personnel Department employees for further processing.

In view of the above actions, communications and personal interviews exhausting all possible avenues of stating your desires in this matter to the proper parties, my only reply can be to the effect that the matter is in the proper hands of our Personnel Placement Section.

REF: OPPORTUNITY.

Dear Mr. Delaha,

I am sure that this present request will not be of surprise to you. It pertains to an old subject that, as you know, it has been talked about many times before with other words and superiors.

I want to assure you that this request for an opportunity of betterment it is my last one. The opportunity I need is one which will be in the best interest of Chrysler Corporation and myself.

I am sure you are well posted of what has transpired from my starting day to this present day of work. I would like to mention only few incidents occurred during all this time.

No too long ago, as the result of a letter addressed to the Personnel office, Mr. Glover, after an interview asked me to prepare a sheet with those additional informations related to the performance of my duties and those related to my knowledge.

All this was done, but it seems that no fruit could ever grow out of it. —

I was given permission to see Mr. Dawson, always

searching for an opportunity. Mr. Dawson spoke to me in a very evasive and unrelated way and his final words were "Darnny you are wasting my time. It did teach me a very good lesson."

It is self evident and very clear that opportunity smiles to those privileged ones and not to those who by their performance and potential qualities should rightfully be given such an opportunity. It is also clear in my mind that the exception has become the rule and in my specific case since I started to work under the supervision of Mr. C.W. BRANCH, and to this present time under the general management of Mr. Dawson, it has applied.

In conclusion I want to hope that an opportunity be given me in view of my merits, in order that I may continue to serve Chrysler Corporation in their best interests and at the same time that of my dear family.

I hope to receive an answer as soon as possible, so that I may take proper steps toward the fulfillment of my hopes.

Very truly,
yours,
Lute A. Marochi

Dear Sir,

after a long and methodic consideration, I have decided to bring my problem to your attention, hoping that you may look into it and help to solve it in the proper possible way.

Mr. R. H. Taylor has handled all my personal records from my first interview, my hiring on August, 24, 1963 to this present time.

Many distorted happenings have occurred in this period which, in my opinion and belief, could have been easily avoided.

I do not intend to bring about all what has happened because, it will take a long time and also part of it, if not most of it, may have become part of my personal history record.

Mr. Taylor should cease from handling my personal records because he has indicated, every time that I have asked to better myself or an opportunity to be considered for a better position, that my records were worthless of any consideration at any time.

I am sure my records will prove different from Mr. Taylor judgement of my ability of performance in all those positions which I have been assigned or other I may be assigned to.

I would certainly appreciate your consideration, cooperation and help you can render in order that a new light of hope may spark and a better future within Chrysler Corporation may become a nearer possibility for me.

Thank you.
Very truly,
Yours

MR. R. TAYLOR,
PERSONNEL DEPARTMENT,
CCSD, MICHOUD PLANT.

Dear Sir,

This is a reminder, following my request, dated April, 12, '65, regarding a better opportunity within CHRYSLER CORP. -

Due to the fact that many previous opportunities of higher grade than mine have already been satisfied and others are presently available in different departments: "INDUSTRIAL ENGR; COST EST. etc"; I would appreciate that some consideration be given to my above mentioned request.

I would also appreciate that I may be informed about the languages opportunities which are presently open with CHRYSLER CORP., which a list of person has been already prepared for.

Very truly,
Yours

NEW ORLEANS, LA., 70129

Dear Sir,
Due to my personal ambition, to a desire
to advance my economical position in direct
proportion to my knowledge, which at the
same time I will be able to widen, I would
like to be transferred out of my present depart-
ment "MATERIAL SPECIFICATION, 2831", to other better
position available.

I can assure you, I will continue to do
my best in the execution of my duties for
the best interest of CHRYSLER CORPORATION.

I hope this can be attained within
the CHRYSLER ORGANIZATION.-

VERY TRULY,
YOURS
