DIR 85469 (Ref: MEXI 7104 - para 126 above) Ref being passed to ODACID and ODENTY per your request. Have discussed MEXI 7104 with Mr. Alexis Johnson. He wants Amb Mann to know that it not likely requested instructions will be forthcoming prior 28 Nov. On Walend ODENTY has jurisdiction. Both ODACID and KUBARK attempting follow their wishes.  For your private information, there distinct feeling here in all three agencies that	DIR 85371 (Ref: DIR 85318 - not in file, not abstracted) To be certain there is no misunderstanding between us, we want to insure that neither Silvia DURAN nor Cubans get impression that Americans behind her re-arrest. In other words, we want Mexi authorities to take responsibility for whole affair.	Amb. Mann's telegram says Many thanks for your telegram 961 (not in file). Perhaps I should describe briefly the background for my recommendations on the OSWAID case.  1. In reading OSWAID's rather complete dossieretc., etc., I therefore request somest instructions on following specific points: a) Mexicans must be told immediately whether we want them to continue with investigation. b) Mexicans are pressing us for immediate agreement that DURAN should be turned lobse but kept under surveillance. What shall we say. Request immediate answer to this specific question. c) If ALVARADO is not to be turned over to Mexicans what do we do with him? Shall we send him to the States for interrogation? Shall Embassy give him polygraph test here? Or shall we do something else and if so what?	EL DIA - The Amazing Puzzle of the Dallas Police. Written by El Dia correspondent, Leopoldo ARAGON. WH says sad about Kennedy. the worse is what is this behind it. Very strange. WH does not doubt that OSWALD had all these connections, but OSWALD could have been hired by someone on the Right to kill Kennedy. WH thinks that F.B.I. believes that he had an accomplice. It would be impossible for one man to fire that many times in that short of time. Had to have an accomplice. A lot to come out yet (This not in OSWALD file. It is in F-8324, Vol. 2)
