

U.S. Department of Justice

Federal Bureau of Investigation

Office of the Director

Washington, D.C. 20535-0001

December 13, 2021

The Honorable Joseph R. Biden, Jr.
President of the United States
Washington, DC 20500

Dear Mr. President:

(U//FOUO) I am writing in reply to your presidential memorandum of October 22, 2021, on the temporary certification of information within certain FBI records under the President John F. Kennedy Assassination Records Collection Act (JFK Act) of 1992, P. L. No. 102-526. As discussed below, I respectfully request continued postponement of highly sensitive information beyond the expiration of the intensive one-year review period which concludes December 15, 2022, propose dates for additional review, and provide an anticipated date of final release, when postponement would no longer be necessary. Attached please find the requested index for each record where the FBI is proposing continued postponement of information.

(U//FOUO) Consistent with the need to maximize government transparency, the FBI re-examined all relevant material previously withheld to release as much information to the public as possible. As a result, the FBI seeks continued postponement of limited information in only 487 documents out of the over 140,000 documents within its JFK Act collection. The requested postponements (redactions) are in three information categories: (1) material protected from disclosure by court order, (2) names of living law enforcement and national security confidential sources, and (3) the social security numbers (SSNs) of living individuals.

(U//FOUO) The first category of information concerns Dr. Martin Luther King, Jr. (MLK) information within the FBI's JFK Act collection shielded from disclosure by court order. This information remains sealed by order of United States District Court for the District of Columbia until and including May 1, 2027. Disclosure on or before this date would violate the court's order; therefore, the FBI proposes release of this information on May 2, 2027.

(U//FOUO) In the second category, the FBI seeks continued postponement of the names of living law enforcement and national security sources. Per the statutory standard for postponement, disclosure would trigger identifiable harm to intelligence operations and law enforcement of such gravity to outweigh the public interest in disclosure. JFK Act, Sect. 5(g)(2)(D)(i-ii). The FBI (only) protected the names of these sources in the records, not the

The Honorable President Joseph R. Biden, Jr.

information they provided. Confidential human sources are integral to the success of the FBI's intelligence and law enforcement mission, and the viability of the FBI's informant program is dependent on their trust. Disclosure of these names would be contrary to the FBI's commitment to protect those who have risked their lives and reputations for the United States and undermines the FBI's ability to recruit sources in the future. As such, the significant harms of disclosure to intelligence and law enforcement operations outweigh the public interest in disclosure of these identities in and of themselves, since disclosing the names alone would not greatly advance public understanding of the events surrounding the assassination.

(U//FOUO) Since harm in the second category is tied to life status, the FBI reviewed its records and public source information to establish whether the individuals protected within this category were deceased, or could be deemed such under the judicially recognized "100 year rule," where an individual born more than 100 years ago is presumed dead. Where dates of birth or death were located, the FBI withheld the names of only those individuals whom it could not verify were deceased or would not be over 100 years old. In those instances where no date of birth or death could be located, a contextual review was conducted to determine whether or not the individual could be presumed dead based on the "100 year rule."

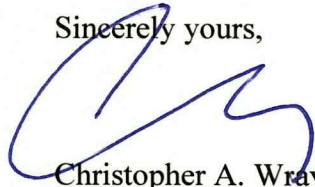

(U//FOUO) Beyond December 15, 2022, the FBI proposes periodic life status reviews of remaining redacted information every two years thereafter until all source names are released or until December 15, 2042, whichever occurs first. Accordingly, the next release of any additional source names would occur on December 15, 2024, and every two years thereafter and, if necessary, a final proposed release of any remaining names on December 15, 2042, when all individuals could reasonably be presumed dead.

(U//FOUO) In the third category, the FBI seeks continued postponement of SSNs assigned to living individuals. The FBI likewise reviewed its records and public source information to assess life status for these individuals and (only) protected the SSNs of those it could not locate proof of death or could not be presumed dead under the "100 year rule." Disclosure of this personally identifying information risks identity theft, thereby posing an identifiable law enforcement harm greater than any discernable public interest in disclosure per the statutory standard. The release of individual SSNs would not advance public understanding of the events surrounding the assassination. Parallel to the review of source names, the FBI proposes periodic life status reviews every two years until all SSNs are released or until December 15, 2042, whichever occurs first. The next release of any additional SSNs would occur on December 15, 2024, and every two years thereafter, with a final proposed release on December 15, 2042, if necessary.

The Honorable President Joseph R. Biden, Jr.

(U//FOUO) The FBI is committed to robust transparency in the release of material from its files to the public. As relevant here, this commitment must be balanced against the need to protect information under court seal, safeguard the names of living law enforcement and national security sources, and prevent the compromise of SSNs assigned to living individuals. In accordance with the requirements of the JFK Act as implemented by your presidential memorandum, the FBI respectfully requests continued postponement of these carefully targeted redactions beyond December 12, 2022, per the proposed periodic review and disclosure dates outlined above.

Sincerely yours,

A handwritten signature in blue ink, appearing to be 'CW', is written over the typed name.

Christopher A. Wray
