

United States Department of State

Washington, D.C. 20520

UNCLASSIFIED

December 12, 2022

Ellen Knight
Senior Director
Records Access and Information Security
National Security Council

Dear Ms. Knight,

The Department is submitting this letter in accordance with President Joseph R. Biden Jr.'s memorandum of October 22, 2021, on the temporary certification of information within certain Department of State records under the President John F. Kennedy Assassination Records Collection Act of 1992, P. L. No. 102-526. Attached please find the requested index and transparency plan for each record where the Department proposes continued postponement of the release of certain information.

Consistent with the need to maximize government transparency, the Department reviewed all relevant material previously withheld to release as much information to the public as possible. As a result, the Department seeks continued postponement of release for 30 records out of the over 140,000 records within its JFK Act collection. The requested postponements are consistent with Public Law 102-526, Sec. 5(g)(2)(D)(i-ii). Each postponement reflects information that, if revealed, would cause grave harm to the conduct of U.S. foreign relations.

The Department of State promotes and remains dedicated to government transparency. That commitment must, however, recognize the need to safeguard U.S. personnel and communications conducting foreign relations on behalf of the American people. The Department therefore respectfully requests continued postponement of disclosure for 30 records in question beyond December 15, 2022.

Sincerely,

Eric F Stein

Digitally signed by
Eric F Stein
