Update on ERA 2.0 Launch

David Lake

Program Manager, ERA

Sam McClure

Electronic Records Program Director

Timeline to Agency Use of ERA 2.0

- Project underway to analyze and migrate Records Schedule and Transfer Request forms data from the current ERA Base system to the revised versions of these forms in ERA 2.0
- Final migration of data will require a pause in the use of ERA for a period estimated to be up to four weeks
 - If the data migration project and the related efforts remain on schedule, we will stop use of the current ERA Base system around early-to-mid February of 2023, and then launch ERA 2.0 around early-to-mid March of 2023
- These are the earliest possible dates and are still subject to change

User Accounts

- ERA 2.0 Agency user roles are same as current ERA roles (Records Scheduler, Certifying Official, Transferring Official, Approving Official)
- NARA will create accounts in ERA 2.0 for all current agency users of ERA based on current ERA user profiles
- PIV/CAC Authentication Requirements:
 - Active ERA 2.0 account
 - Active OMB MAX.gov profile for PIV/CAC authentication
 - For users who do not have a PIV/CAC we can support with alternate authentication means
 - User guide to set up OMB Max.gov profile will be provided

Agency Use of ERA 2.0

We will continue to refine and update the timeline for the shutdown of ERA Base and the release of ERA 2.0 for Agency use.

We will continue to communicate whether we remain on the current schedule or have to postpone
